

UFUA MEMO: EA Update Number 5

Negotiations for a new EA are ongoing.

According to member's instructions through our EA survey, individual emails, phone calls and via your BCOM delegates the maintenance of your current conditions of employment has been our primary focus.

Airservices have tabled all of their proposals for a new EA and your negotiating team with the support of your BCOM have been responding to them.

The matters requiring further negotiation before a serious proposal for a new agreement can be put to you for consideration are:

-  Expanding the use of Activity Rosters to all 24hr locations.
-  Changes to Personal Leave provisions.
-  Changes to remote locality provisions.
-  Rank progression for lateral entrants.
-  Consultation.
-  Workplace Delegates rights.
-  Rearrangement of FIFO conditions.

We are hopeful that Airservices will continue to negotiate in good faith with us even if this means agreement is not reached by the 22nd of May.

Be assured your negotiating team is working to get the maximum pay increase possible while protecting your current conditions of employment.
